# CITB Publications for Site Safety Plus 2019

<https://shop.citb.co.uk/citb-product-catalog/CITB/Publications/SSP-Course-Material/>

*Publications now available to download*

## Next Steps

- SSP Account Managers across the country
- Working with existing centres and supporting possible new ones
- Use industry and provider feedback to help develop the SS+ product offer
- Work with industry bodies to ensure training is accessible to all.

## HS&E Touch Screen Test Changes – 26 June 2019

HEALTH, SAFETY AND ENVIRONMENT TEST 

We're making changes to the HS&E test

It's about protecting people – it's that simple. The updates we are making to the test on the 26 June 2019 will ensure it remains fair, valid and reliable.

Updated revision materials will be available to purchase and download from the CITB shop from 15 May 2019. If you are taking your test before 26 June 2019 you should purchase the 2018 version of the revision materials.

To find out more about these changes, visit [citb.co.uk/HSEtestdev](http://citb.co.uk/HSEtestdev)

CITB is a registered charity in England and Wales (Org No 104205) and in Scotland (Org No 12234607). Printed on material with a minimum of 70% recycled content.

- Updated and revised questions
- Balanced question difficulty
- Scoring/pass mark simplified
- Question style variety (drag and drop in order for MAPs test)
- Clearer instructions

# HS&E Touch Screen Test Changes – 26 June 2019

**WORKING ENVIRONMENT**

**01 General responsibilities**

- The Health and Safety at Work etc. Act 1974 contains legal duties for employers and employees.
- Visitors and workers must be given a site induction and authorised to enter site.
- Employers must provide information to workers about site rules, welfare facilities and emergency procedures.
- Workers should be provided with clean welfare facilities and information regarding hazards and risks at work.
- Everyone on site is responsible for the consideration of neighbours and members of the public.
- Employees should follow a safe system of work agreed with the employer.
- A safe system of work would include information such as the sequence of work, and any hazards associated with the task.
- The purpose of a risk assessment is to identify hazards and control risk.
- Risk assessments consider the likelihood of a hazard occurring and the seriousness of harm that could occur.
- A method statement will inform a worker of the safe way to carry out a task.
- If a task feels dangerous or unsafe, stop work and report it immediately.

---

<p><b>101</b> The whole site has been issued with a prohibition notice. What does this mean?</p> <p><b>A</b> Continue with site work.</p> <p><b>B</b> Finish the job and go home.</p> <p><b>C</b> Do not use any power tools.</p> <p><b>D</b> Stop work because the site is unsafe.</p>	<p><b>102</b> After watching you work, a Health and Safety Executive (HSE) inspector issues an improvement notice. What does this mean?</p> <p><b>A</b> You are not working fast enough.</p> <p><b>B</b> You are not working in a safe way.</p> <p><b>C</b> Your work has improved since the last visit.</p> <p><b>D</b> You need to improve the standard of your work.</p>
---	---

- Revision Materials
  - Updated
  - Not just a list of questions
  - Testing understanding rather than memory
  - Available from 15 May
- For tests before 26 June use existing revision material
