Unlocking Workforce Potential & Transparency

My **Training** Passport

- My Training Passport is founded and managed by Mark Haylett.
- Equipped with 25+ years of experience in industrial safety and training.
- Leveraging technology for effective training management.
- Empowering individuals and organisations to build competent and compliant teams.

Mark Haylett
Founding Director
My Training Passport

Our Mission

To empower both individuals and organisations to build compliant teams through unparalleled training management with unique skill transparency and industry benchmarking.

Our Values

01 Data-Driven Customer Focus

Delivering the highest quality training management and visibility system for our users through industry expertise and first-hand customer insights.

02 Employee Empowerment

Happy and empowered employees create an exceptional platform for our users. Which is why we nurture a positive working environment.

03 Sustainable Growth

Striving to achieve responsible business practices by reinvesting in employee development and platform improvement. This ensures long-term success that benefits all stakeholders including customers and end users.

Software features

Cloud-storage

Employee data including all relevant qualifications and licences can be added and stored in the one place. With easy access and concise dashboard overview from any digital device.

Smart Claims

Prepare your grant claim for your entire organisation with a few clicks. No more looking for data and information. Manage everything within My Training Passport and populate your CITB application ready for submission.

Reminders

Reminders can be set to suit business / individual needs and are easily customisable, ensuring no one in your team or organisation misses out.

Smart Sessions

For training sessions or CPDs delegates simply sign in with a tap of their smart card and My Training Passport will update each training record and provide a certificate on completion of the session or course.

Reporting

Pre-set and custom reports for common insights such as training expiry dates, expenditure, gap analysis, and more. All easily sharable at a moments notice.

Smart Access

Smart access to certification and identity checks anytime and anywhere your workforce is needed on site with a tap or scan of Smart cards, or PPE badges.

Key Benefits

Transparency

Streamlined onboarding, up-skilling, and record-keeping ensure you meet best practices with clear, verifiable reports.

Efficient operations

Ditch paperwork with secure, digital record management accessible through employee devices or access cards.

Peace of mind

Gain instant proof of compliance with realtime dashboard insights and instant, anytime, access to staff profiles with smart cards - ensuring workforce best practice and boosting confidence with customers.

Realtime benchmarking

Manage all training certifications and access in one place, while analysing live insights such as gap analysis for roles, skills and EDI data in order to stay ahead of the industry standards.

A·D FUELS
FUELLING OUR FUTURE

What our customers are saying...

"We have been using this product for over 4 years now to manage the training records for 600+ employee and 400+ subcontractors."

CRAIG MORTON
Mitie

"The system is simple to navigate and ensures that individual training limitations are easily understood and robustly monitored at all levels of the business."

GRAHAM MCCARROLL
Health & Safety Manager

What our customers are saying...

"The best decision for maintaining compliance across our fleet, ensuring best practice to meet industry standards and customer expectation. My Training Passport offers a feature rich solution that has given us the visibility and efficiency we needed to manage training and grow our operations."

Jon Mayes
MANAGING DIRECTOR

What our customers are saying...

"My Training Passport has not only saved us time and money, but it also allows us to keep on top of CPCS, NPORS or C&G accreditations before they expire, reminders for the H&S and site managers emails to highlight any gaps in our training. Using the dashboard, contract, project and site managers quickly check new and existing personnel before their induction. For multi-job operatives, the smart access labels means we don't get caught out, even when the operative has misplaced their cards. I wouldn't hesitate in promoting My Training Passport to any construction-based companies..."

Ewan Mason
Recruitment Manager
